## **IUBMB Enzyme Nomenclature**

EC 2.3.1.51

**Common name:** 1-acylglycerol-3-phosphate *O*-acyltransferase

**Reaction:** acyl-CoA + 1-acyl-sn-glycerol 3-phosphate = CoA + 1,2-diacyl-sn-glycerol 3-phosphate

**Other name(s):** 1-acyl-*sn*-glycero-3-phosphate acyltransferase; 1-acyl-*sn*-glycerol 3-phosphate acyltransferase; 1-acylglycerolphosphate acyltransferase; 1-acylglycerolphosphate acyltransferase; 1-acylglycerophosphate acyltransferase; 1-acylgl

**Systematic name:** acyl-CoA:1-acyl-sn-glycerol-3-phosphate 2-O-acyltransferase

Comments: Acyl-[acyl-carrier protein] can also act as an acyl donor. The animal enzyme is specific for the transfer of unsaturated fatty acyl groups.
